## Introduction >>>

Sukkur IBA University assigns utmost importance to entrepreneurship. Under the patronage of Management of Sukkur IBA University, a unique and innovative journey of establishment of Center for Entrepreneurial Leadership and Incubation took place in year 2012. It was an ambitious plan to do something that has never been attempted in the region by any other institute. It helps to translate new ideas into new products, services and technologies. The Center advances the knowledge and practice of entrepreneurship and innovation. The center supports entrepreneurial learning and collaboration through its cutting-edge curriculum, innovative hands-on learning experiences, and leading faculty research, as well as conferences, mentorship, and community and global outreach programs. The center provides support to young entrepreneurs in the form of consultancy, connecting them with national and international markets and by providing them business incubation facility.

Currently 13 startups which have total worth of Rs. 10.122 million are functional at the Center. The incubated new-start-ups are employing 54 individuals and internees with annual revenue above 12.237 million.
